2º PASSO

Se o manuscrito for **aceito**, o autor será a escolher uma licença de direitos autorais e, caso o periódico seja híbrido, selecionar que deseja publicar por meio do **Open Access**.

Open Access

* This publication is a hybrid journal, giving authors the choice of making their article freely accessible to users by paying an open access article processing charge (APC), or choosing traditional article publication, allowing access to users through subscription and other purchasing options. Now that your article has been accepted for publication you may enable unrestricted public access by selecting "yes" below. If you select yes, you commit to pay the US \$2,350 APC.

Although voluntary page charges do not apply to open access article submissions, other applicable charges (such as over-length paper charges or a charge for the use of color in print format) will be billed separately once article formatting is complete (but prior to publication). Over-length paper charge details can be found [here](#).

For any questions regarding IEEE open access policies, please refer to our [Frequently Asked Questions on open access](#).

- ☐ **Yes** - please make my article Open Access. I understand that there is a \$2,350 APC associated with Open Access publication. Some institutions offer assistance for open access funding. Check our [institutional partners list](#) to see if yours is one.
- ☐ **No** - my article is a traditional submission. I understand that over-length paper charges may still apply, as outlined above.

CAPES Transformative Agreement

CAPES – Coordenação de Aperfeiçoamento de Pessoal de Nível Superior has an agreement with IEEE that enables researchers to publish articles without open access fees (APCs) and unlimited open access in all eligible hybrid or gold open access journals of IEEE.

Eligible Authors: The **corresponding** author has to be affiliated with one of the participating institutions.

Eligible Articles: Original research articles which are written by Eligible Authors and which are editorially accepted for publication in Publisher's journal with an acceptance date during the term of the contract, and which are of one of the following article types:

3º PASSO

Após o autor indicar a escolha por meio do **acordo transformativo com a CAPES**, o autor deve submeter ao sistema o arquivo completo do artigo.

The screenshot displays the IEEE Author Portal interface. At the top, it says 'IEEE Author Portal' on the left and 'My Submissions Samantha' on the right. Below this, there are two dropdown menus: 'Journal' set to 'All Journals' and 'Submission Status' set to 'All Submission Statuses'. A prominent blue button labeled 'Start submission →' is visible. Below this, a section titled 'Identifying Key Reasons to Use the IEEE Author Portal' shows submission details: 'Submission Status: Accepted (Final Files)', 'Manuscript ID: PT2-02-0015-2023', 'Last Modified: 23 February 2023 by Editorial Office', and 'Submitted On: 22 February 2023 by Samantha Jacobs'. A red rectangle highlights a clock icon, the text 'Due by 2 March 2023', and a blue button labeled 'Submit Final Files →'. To the right, a box titled 'Need help choosing a journal?' contains a 'Find a journal' button.

4º PASSO

Os autores devem **confirmar** se os detalhes do artigo estão corretos e, mesmo dentro do acordo, concordar em “pagar” uma taxa da APC - que, após a confirmação do vínculo institucional, será anulada. O autor também deve selecionar e assinar uma **licença CC-BY** por meio do Formulário *Electronic Copyright* (eCF). A editora sugere a escolha da CC-BY 4.0, na qual o autor mantém os direitos autorais e o artigo é publicado em acesso aberto.
